

Tony and the Dragon

Once upon a time, there was a brave knight called Tony. He was very adventurous and traveled around the world on his horse.

Once, he arrived in a small faraway village and met a man living in a cave. The man told him about a dragon that appeared recently in the village and scared people.

The villagers didn't know what to do. They tried giving the dragon all of their food but it didn't work out. They gave him all the animals in their farms but he kept attacking them.

Then they gave the dragon all the gold and money in the village but he wasn't satisfied. The king sent a group of soldiers to kill the dragon but they couldn't.

The king had an idea which is to send his daughter to the dragon. The daughter sat by the lake and waited for the dragon to appear.

Tony knew about this plan and refused to leave the princess by herself. He followed her to the lake and waited for the dragon to appear.

The dragon finally appears and wants to eat the princess. Tony fights bravely and eventually manages to kill the dragon.

Tony and the princess get back to the palace. They fall in love and get married. They live happily ever after.
